REQUEST FOR CERTIFICATE OF CORRECTION
UNDER 35 U.S.C. 254 and 37 CFR 1.322

Dear Sir:

The holder of U.S. Patent No. 6,994,746 hereby requests correction of errors in the issued document. A completed copy of Certificate of Correction Form PTO/SB/44, reciting the specific changes required, accompanies this request.

The holder of U.S. Patent No. 6,994,746 submits that the corrections neither constitute new matter nor require re-examination. The holder of U.S. Patent No. 6,994,746 further submits that the requested correction does not materially affect the scope or meaning of the patent.

U.S. Patent No. 6,994,746

APR 07 2006

The holder of U.S. Patent No. 6,994,746 submits that the errors are the result of a mistake on the part of the Patent and Trademark Office, and therefore no fee is required for the correction. Specifically, in column 6, line 11 of the printed patent, the number "10" has been incorrectly inserted between the words "compared" and "with." Column 6, line 11 should read "satinized and compared with each other for properties," as shown on page 8, lines 9-10 of the application.

In column 6, Table 3 of the printed patent, a typographical error has been made by the PTO. The number in column 2a, row '75° Sheen' incorrectly reads "53," and should be changed to --63-- as shown on page 9, Table 3 of the application.

Table 3 in the printed patent has been incorrectly formatted. Row headings "Coat weight at 6% moisture" and "R 457 Opacity" should be underlined so as to conform with the other row headings. A line space should be inserted between row 'Yellowness' and row 'R 457 Opacity'. A line space should be inserted between row headings 'Coat weight at 6% moisture' and 'Sheet gloss,' and also between row headings 'R 457 Opacity' and 'Prüfbau dry pick.' Correctly formatted Table 3 is included below on page 3, and also on form PTO/SB/44.

Respectfully submitted,

Dated: March 31, 2006
